

DIRECTIONS FOR USE

IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be carefully read in order to obtain safe and successful use of this product.

Crusade may be used to reduce drift of sprays where this is a concern.

Restrictions or Warnings

Please consult Nichino Europe Co., Ltd. or its agents for further details, a full list of approved crops and for specific recommendations.

Rates of use

Crusade should be used at a rate to give a 0.25% dilution of the final spray volume. For example:

Water volume	Required quantity of Crusade at 0.25%
200 litres	500 ml
300 litres	750 ml

Mixing

Half fill the spray tank with clean water and commence agitation. Add the recommended quantity of Crusade. Then add the recommended quantity of pesticide and the remaining water, maintaining agitation throughout.

COMPANY ADVISORY INFORMATION

Conditions of supply: All goods supplied by us are of high grade and we believe them to be suitable but as we cannot exercise control over their storage, handling, mixing or use, or the weather conditions before, during and after application, which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality of fitness for any purpose of our goods are excluded, and no responsibility will be accepted by us or re-sellers for any failure in performance damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.

IMPORTANT INFORMATION

FOR USE ONLY AS A DRIFT REDUCTION AGENT
READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING WITH PLANT PROTECTION PRODUCTS.

SAFETY PRECAUTIONS

Operator protection

Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS), SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (safety glasses) when handling concentrate.

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

Operators must: Follow all operator protection instructions for the plant protection product. Where the personal protective equipment specified on the adjuvant label is different to that specified on the plant protection product label, the highest level of protective equipment must be worn.

Environmental protection

Do not contaminate water with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.
